

Project Name: Plant Care Reminder

Description:

The Plant Care Reminder app is for people who love taking care of their plants. It helps them manage when to water and care for their plants with easy reminders.

Feature List:

Must-Have Features:

1. **Add Plants:** Users can add their plants and set up their own watering schedules.
2. **Notifications:** The app will remind users when it's time to water or take care of their plants.
3. **Plant List:** A list shows when each plant was last cared for and when it needs care next.

Should-Have Features:

1. **Timeline:** A visual timeline that shows when each plant was last watered.
2. **Tips:** A section with helpful tips on how to care for popular houseplants, including advice on light, temperature, and soil.

Nice-to-Have Features:

1. **Upload Photos:** Users can upload pictures of their plants to track their growth.
2. **Custom Reminders:** Reminders for other tasks like repotting or fertilizing.
3. **Weather Integration:** The app could connect to a weather app to change care reminders based on local weather.
